

Mobilising Biomass Supply

An aerial photograph of a dense forest. The trees are closely packed, and their foliage shows a mix of vibrant green and yellowish-green, suggesting a transition in seasons or different tree species. The lighting is bright, creating a high-contrast image with some darker shadows between the trees.

The Irish forestry sector makes a significant contribution
of €2.3 billion to the Irish economy each year and
currently provides 12,000 jobs

3.3 million cubic meters of roundwood
harvested from Irish forests in 2018
